## RESEARCH INTERESTS

Bank and nonbank financial intermediation, monetary policy transmission, financial stability, asset management.

## EDUCATION

**PhD in Economics** *2023 – Present*
*University of Groningen,* Netherlands

– Dissertation: *Empirical Essays on Nonbank Financial Intermediation, Monetary Policy and Macro-Financial Risk* (expected August 2027)

– Supervisors: Daniel te Kaat and Michaela Kesina

**MSc in Economics (Cum Laude)** *2020 – 2022*
*University of Groningen,* Netherlands

– GPA: 8.8/10

**MSc in Finance (Cum Laude)** *2020 – 2022*
*University of Groningen,* Netherlands

– GPA: 8.7/10

**BSc in Economics and Business Economics (Cum Laude)** *2017 – 2020*
*University of Groningen,* Netherlands

– GPA: 8.5/10

**Exchange Semester** *2019 – 2020*
*Universidad Carlos III de Madrid,* Spain

– GPA: 8.7/10

## RESEARCH EXPERIENCE

**PhD Research Intern** *Jul 2026 – Oct 2026*
*Bank of England, Monetary Analysis,* London, United Kingdom

– Research on how the institutional constraints of global bond funds shape their demand for safe assets, using security-level fund holdings data.

**PhD Research Intern** *Jun 2024 – Dec 2024*
*Deutsche Bundesbank, Financial Stability,* Germany

– Research on nonbanks and monetary policy transmission using the German credit register and AnaCredit; resulted in *When Nonbanks Dampen and When They Amplify.*

## WORKING PAPERS

**When Nonbanks Dampen and When They Amplify: A Yield-Curve View of the Nonbank Lending Channel** (with Peter Bednarek, Steven Ongena, and Natalja von Westernhagen).

*Abstract:* We show that the nonbank lending channel is yield-curve dependent. Using German credit register data and within-firm identification, we decompose high-frequency monetary policy surprises into orthogonal short-end, medium-end, and long-end components. Nonbanks expand relative to banks after short-end surprises but contract after medium- and long-end surprises. Financial service institutions drive this sign reversal through a bank credit reallocation channel, while insurers move in the opposite direction, expanding after medium- and long-end surprises as duration-driven solvency gains support credit provision. The nonbank response therefore depends on both the yield-curve segment affected by monetary policy and the composition of the nonbank sector.

*Coverage:* ECB Occasional Paper No. 391, *Monetary policy transmission and non-bank financial intermediation* (ChaMP Research Network, 2026); Deutsche Bundesbank Monthly Report (April 2026).

## WORK IN PROGRESS

**Banks, Nonbanks, and Geopolitical Shocks: Evidence from the Russia–Ukraine War** (with Daniel te Kaat, Michaela Kesina, and Natalja von Westernhagen).

*Coverage:* FIRM Newsletter, Issue 4 (2026).

**Global Bond Funds and Safe-Asset Demand** (with Carlos Cañón Salazar and Georgia Bush).

## GRANTS & AWARDS

**AFA Ph.D. Student Travel Grant** *2027*
American Finance Association, 2027 Annual Meeting (Washington) — US$800

**Best Paper Award Semifinalist, FMA Annual Meeting** *2026*
Paper: *When Nonbanks Dampen and When They Amplify*

**Research Grant, Frankfurt Institute for Risk Management and Regulation** *2026*
Project: *Banks, Nonbanks, and Geopolitical Shocks* (co-recipient) — €71,108

## CONFERENCE PRESENTATIONS & SEMINARS

**2027 (scheduled):** AFA Annual Meeting (Washington, poster).

**2026:** CEBRA Annual Meeting (Copenhagen), FMA annual meeting (Tampa), IFABS 2026 (London), 15th MoFiR Workshop on Banking (Varese), 10th Emerging Scholars in Banking and Finance Conference (London), 19th RGS Doctoral Conference (Bochum).

**2025:** ECB ChaMP Special Workstream 1 NBFI Workshop (Frankfurt), Bundesbank Research Seminar Series (Online), FEBRI PhD Conference (Groningen).

## PROFESSIONAL SERVICE

**Referee:** *Journal of International Financial Markets, Institutions & Money*

**Scientific Committee Member**, IFABS Ningbo Conference (China) *2026*

**Member, ESCB ChaMP Research Network** *2024 – Present*
*European Central Bank*

## TEACHING EXPERIENCE

**Teaching (PhD Programme)** *2023 – Present*
*University of Groningen,* Netherlands

– Teaching component (20% of PhD): Macroeconomics, Econometrics, Economics of Banking, Behavioural Finance (MSc Finance).

– Bachelor's thesis supervision.

**Lecturer in Economics, Econometrics, and Finance** *2022 – 2023*
*University of Groningen,* Netherlands

– Delivered MSc/BSc courses across finance, econometrics, and economics (e.g., Portfolio Theory, Behavioural Finance, Econometrics, Economics of Banking).

– Supervised bachelor theses in empirical finance.

**Teaching Assistant** *2018 – 2022*
*University of Groningen,* Netherlands

– Courses: Microeconomics, Macroeconomics, International Economics, Statistics.

## TECHNICAL SKILLS & EXPERTISE

– **Programming & Software:** Stata, Python, MATLAB, SQL, EViews, R, LaTeX, MS Office.

– **Econometric Methods:** Panel regressions, high-frequency identification, local projections, event studies, difference-in-differences, instrumental variables, fixed effects models, network econometrics, machine learning for economics.

– **Databases:** AnaCredit, Bundesbank credit register, Banco de México fund-level holdings, SHS, MFI interest rate statistics, CSDB, Orbis, BankFocus, Eikon, Datastream.

– **Languages:** Italian (Native), English (Fluent), Spanish (Upper-intermediate), Dutch (Elementary).
